PROFESSIONAL SUMMARY

B.Tech graduate skilled in **Python, SQL, Power BI**, and ETL workflows. Possesses hands-on expertise in building interactive dashboards, reliable data models, and data-driven storytelling using **DAX** and Power Query. Certified in Data Analytics with TechA Data Analytics (Infosys Springboard). Seeking entry-level analytics roles to solve complex problems and drive business decisions.

TECHNICAL SKILLS

Programming & Python Libraries: Python, SQL, HTML, CSS, Pandas, NumPy, Matplotlib, Seaborn
Data & BI Tools: Power BI, DAX, Power Query, Excel (Pivot Tables, VLOOKUP, INDEX/MATCH), Tableau
Databases & Platforms: SQL Server (MySQL, MSSQL) Microsoft Dataflows, On-Premises Gateway
Analytics: EDA, Data Cleaning, Statistical Analysis, Dashboard Development, ETL Workflows
Soft Skills: Problem Solving, Communication, Report Building, Team Collaboration, Hypothesis Testing, Correlation Analysis

EXPERIENCE

Infosys Springboard internship Program

Data Visualization Intern

Remote

February 2026 – April 2026

- Delivered **ClimateScope** as the internship capstone — an end-to-end Python pipeline for Kaggle Dataset ingestion to a live **Power BI** dashboard, tracking 1,276 extreme weather events across 100+ countries.
- Applied Python-based EDA, Power BI reporting, and data storytelling on real-world climate datasets.

PROJECTS

ClimateScope – Global Weather Analytics | Python, Pandas, Excel, Power BI

2026

- Engineered a full analytics pipeline: Kaggle, Pandas cleaning & monthly aggregation, interactive **Power BI** Dashboard with date slicers, country filters, and city-level drill-downs.
- Tracked **1,276 extreme events** (1,228 heatwaves, 38 high-wind, 10 heavy rain) across 100+ countries; built a Seaborn choropleth Risk Map classifying regions into High/Medium/Low risk; surfaced temperature extremes from **-30°C to 49°C**.
- Delivered parallel outputs in both **Power BI**, demonstrating cross-platform BI reporting capability.

Telco Customer Churn Analysis | Python, Pandas, Seaborn, SQL, Power BI, DAX

2025

- Analyzed **7,043 customers** via Python EDA + Power BI, identifying **1,869 churned customers** (26.54% churn) and **\$139.13K revenue loss**; structured data model using Star Schema with a dedicated DAX measures table.
- Discovered Fiber Optic churn at **41.89%** vs. DSL at **18.96%**; month-to-month contracts exceeded **40%** churn; Tech Support subscribers had only **~15%** churn – identified as the #1 retention driver.
- Built a two-page Power BI dashboard + Jupyter Notebook EDA covering service impact, demographic loyalty profiling (partners ~20%, dependents ~16% churn), and contract risk segmentation.

EDUCATION

Shri Ram Institute of Science and Technology

Bachelor of Technology, Computer Science and Engineering

2022 – 2026

CGPA: **8.46/10**

Govt. Excellence School, Madhav Nagar, Katni

Higher Secondary (12th, MP Board)

2016 – 2020

High School (10th, MP Board)

Percentage: **84%**

Percentage: **94.2%**

CERTIFICATIONS

- Data Analytics with Generative AI** – Simplilearn
- Complete Data Analyst Bootcamp: Basics to Advanced** – Udemy
- TechA Data Analytics** – Infosys Springboard

ACHIEVEMENTS & LANGUAGES

Best Performer Award – Inter School Cricket Tournament (2019–2020)

Languages: English (Professional), Hindi (Native)
